Dear Mr. Christianson:

At its meeting held on January 10, 1991, the State Board of Physical Therapy reviewed your correspondence to the Occupational Therapy Board regarding Neurometer CPT.

After a review of the information, the Board determined that it cannot be used for treatment by a physical therapist, however, it can be used for an evaluation tool for the purpose of developing and/or modifying treatment plans/goals.

If you have any questions concerning this matter, please do not hesitate to contact the Board office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Cindy J. Warner".
